

Season's greetings for Crazy 2020!

Highlights:

- No trips anywhere.
- More backyard fires with smores than all the years we have lived here.
- Dan & Janet volun-told basketball scorekeepers for 6th grade basketball team.
- Assisted neighbors following a neighborhood power outage after a summer storm. Dan expanded skill set from lawn mower engine repairs to generators.

Dan:

- Volunteered Winter Saturdays to Adaptive Sports Connections as a ski helper to clients with special needs: cut short by a warm winter and leg injury while helping. Assisted in the Summer with the Kayak program.
- COVID-19 projects: 2 drainage projects, constructed small shed, added outside power outlet, rerouted garage outlets and wiring, built frame for porch swing, rebuilt 3 benches, assisted in a raised flower box construction, and a social distanced Trick or Treats candy delivery system - deemed a hit with the kids.
- Enjoyed telling Nicholas all about my alma mater Marysville when Nicholas' football team played there.
- Celebrated 6th decade and received Ohio Golden Buckeye card.

Janet:

- Stress relievers: lots of walks, growing flowers and tomatoes, baking many cookies, taking pictures of all the flowers, trees, leaves, and insects. Finding holiday spirit by creating trees and bulbs out of chicken wire and lights, just in time for the first snow.
- Work from home since March, desk space currently in its 6th location in the house.

Nicholas:

- Sports: Middle School Football Team (Fall), Archery & Basketball (Winter).
- Kayaked 8 miles on the Mad River in the Summer with Dad.
- Started Middle School fully remote, then hybrid, then fully remote, outdoor movies with friends, learning to adjust to change. Finally able to play on football team.

Best wishes for a chance to recharge this season,

Dan, Janet and Nicholas
